FOR COACHES & PERSONAL TRAINERS

Coach more people. Chase fewer messages.

Programs, nutrition plans, weekly check-ins, chat and payments in one app — in Arabic and English, priced in Egyptian pounds.

- Program builder & Arabic exercise library
- Check-ins with side-by-side photos
- InstaPay, wallets & cash tracked

WHY QOWA

Your coaching business, out of WhatsApp.

Most online coaches run on WhatsApp, Google Sheets and PDF meal plans. It works — until you have thirty clients.

Sound familiar?

- Programs live in PDFs and spreadsheets that clients lose or never open.
- Check-in day means scrolling through chats for photos, weights and excuses.
- You can't tell at a glance who is following the plan and who has gone quiet.
- InstaPay screenshots get lost and renewals slip by without anyone noticing.
- Global apps are priced in dollars and don't speak Arabic.

With Qowa

- Build a program once, save it as a template, assign it in a minute.
- Check-ins arrive in one queue, with photos side by side and trends drawn for you.
- Each client's page shows adherence, PRs, weight trend and renewal date.
- Every payment is recorded with its proof; you see who owes and who renews this week.
- Arabic and English, priced in Egyptian pounds, with a free plan to start.

Our aim: your weekly check-ins done in a fraction of the time — so you can take on more clients without giving up your weekends.

Questions coaches ask

Does Qowa take a cut of my income?

No. Payments from your own clients go straight to you; you pay a flat monthly plan. A 10% commission will apply only to clients who find you through the Qowa marketplace (on the roadmap), for their first 12 months.

Do my clients pay for the app?

No. The client app is free for them.

What happens when a client leaves?

They keep their own logs and a read-only copy of the programs they paid for. Your templates, videos and private notes stay yours.

Can I bring my current clients?

Yes. Invite them with a WhatsApp link or a QR code, or import your list from a spreadsheet.
